“The Gastronomic Routes carried out by Sebrae are a unique opportunity to strengthen and promote Tocantins’ typical cuisine. The Director also mentions that these initiatives, in addition to awakening sensations that whet the appetite and satisfy hunger, it is also a way for people to experience the history and beauty of Tocantins. “Food is a field where we access memories and affections of moments that made us happy in the past. It is with this perspective that Sebrae Tocantins wishes to bring the best of Tocantins cuisine through Gastronomic Routes. These actions also generate a tourists flow, jobs and income, in addition to boosting local economic development, with an emphasis on small businesses.”

Rerison Antônio Castro

Sebrae/TO Superintendent Director

“The Tocantins Gastronomic Route is the consolidation of a series of actions that Sebrae carried out occasionally in several municipalities to, in fact, publicize the entire economic, cultural, historical, touristic and, consequently, gastronomic potential of the State. “So we presented in the different regions of Tocantins the work that was carried out by Sebrae and the different delicacies that these places can offer to visitors as part of the tourist itinerary, that is, in all regions of the State there is a route prepared for tourists. We trained entrepreneurs in these cities so that they are qualified to serve this public that visits Tocantins”

Rogério Ramos

Sebrae/TO Technical Director
